

FleetCentrix™

FLEET MANAGEMENT

- FleetCentrix offers your organization a robust enterprise fleet maintenance and management system for your entire fleet.
- Using FleetCentrix, organizations can stay ahead of maintenance costs, track warranty and claims, improve labor productivity, and extend the useful life of your vehicles, all from secure, robust, user-friendly, web-based and mobile interfaces.

OPERATIONS

- Use FleetCentrix to avoid downtime and increase productivity by optimizing your fleet maintenance services.
- Schedule and manage routine and preventive maintenance based on asset life cycle tracking and warning indicators.
- Record garage repair activities on a vehicle, including parts used, costing, technicians involved and repair notes.

LOGISTICS

- Manage warehouse inventory, provide fleet managers tools to support and maintain overall fleet operations.
- Track your vehicle assets and the parts within them.
